Mother died in the great war. She was a high level FUCKIN MAGE. dont know much of her exploits in the war. Was told she died like a hero defending her squad. She was an elf. Father, a human, was a professor in art. Knew the city like the back of his hand. Was a drinker though. Escalated drinking after mothers death. He stopped to take care of me. Died at the age of 65-70. Both moved to the city a long time ago. They loved it.

I am a half human half elven child. Friendly kid, wherever I go ppl kinda like me. I know how to talk to people, he gets em. Not very smart tho, but knows how to get by in the big city. A wimpy kid FLEGMA not that strong. Dosta kontakti i prijateli u gradot. Never did much. His parents left him a hefty inheritance to last him awhile. Spends his money on women drugs and drinks After the passing of the parents he starts abusing drugs and alcohol on a daily basis. Still kept in touch with his fathers work friend **Georgie**. An old man almost like a grandpa to him. He taught him how to fight THEM FISTICUFFS.

One day after a big bender him and his 2 friends Alvaro and Jermaine were going home from their fav Tavern (??)outside the city. I got the urge to piss in a specific bush in a dark part of the nearby forest. I tell em ill catch up and run into the darkness. As i do my deed i see a flashing light in the distance. Intrigued i start moving towards it. After 30-40ft i trip on a tree root and blast my head in the ground. I open my eyes and see a snail sitting there LOOKING at me. I pick it up. It starts talking to me about a temple and a prize for cleaning it? This snail must be crazy but for some reason i believe him. He leads me to a ruin 100-150 ft into the forest. I see it and immediately feel like i belong here. I start working at that moment. I work like that for a month rebuilding it and cleaning it. After its done i was sitting in the main chapel of the now rebuilt temple. A strange woman appears behind me and sais **its time for your reward young one**. Gives me a vial with a grey potion and tells me to drink it. Little sus but i do it anyway. I want my reward. I go unconscious after drinking it. The following morning i wake up feeling weird my complexion is darker my mind hurts. THIS BITCH MUST HAVE POISONED ME. She shows up again and explains what the reward is. I try to fight her and seemingly run away from the temple. After a month i finally get home in the city. Weeks pass and i feel weaker and weaker. I Visit **Georgie** he examines me and sends me to an alchemist/medic friend of his **Alain von Magnus**. He experiments on me for weeks but to no avail. One day while laying in bed i get so thirsty MAD THIRSTY run

around and find a bowl of pale pink/red liquid. I drink it and it makes me feel better in the same moment. Alain says that's the residual liquid from HP potions. In the mean time he finds out that if i want to be cured from the poison the one who put it on me is the only one who can help me get rid of it. Or i should just kill that bitch. Packed with 1 month of residual potions i go back to the temple with hopes of finding that bitch. I ofc dont find her but i feel my powers more intensely while i am at the temple. Months pass by i study my powers and learn how to control em. Residual is low but i gotta move and find the bitch...
